TEXAS.

Murder, Rapine and Cattle Robbery on an Unheard-of Scale.
—The Mexican Commission.

If the People are not Protected by the Government They will Protect Themselves.

BROWNVILLE, August 4.—The United States Commission is in session here to-day. There is much excitement on the Mexican side of the river, and there are rumors of a desire to present testimony.

The Mexican papers ask all persons of Mexican birth to refrain from giving testimony to the Commission. There have been some interesting developments before the Commission as to Mexicans in Texas.

It is supposed that the agriculturalists are actively assisting the cattle thieves. The efforts of Texas owners to recover their stolen cattle before the Mexican civil authorities are useless. Little stealing has been going on ever since the rebellion. Cattle thieves seize and detain all persons of Mexican birth, and are ready to go to the interior of Mexico under the old tariff laws.

A Herald special says that Lieutenant Burke, of the State mounted police, and others, were before the United States Commission to-day. Their evidence shows an appalling record of murders. Numbers of army officers, soldiers and sailors were killed, and their bodies mangled; men have been killed within the limits of Brownville, parties from the thieves, who are armed with Spencer and Winchester rifles, driven over the river within eight miles of Brownville, Texas, have been taken across the river, the thieves will take as many cattle as they can get, and are ready to register the stolen property.

The cattle are all powerful to-day with the Mexican population. In Texas a war of races is looked upon as inevitable. The most open insult and disgrace is heaped upon private property, and the general feeling among the people that they must protect themselves renders lonely ranchers afraid to testify in any open court.

ARGENTINE PROVINCES.
An Indian Outbreak—The People Defending Themselves.

Adolpho Block, a Georgian, Murdered by Germans.

New York, August 4.—A Rio correspondent writes that the Indians are invading and ravaging the Argentine provinces, on the west side of the Rio Plate, and are killing numbers, and have advanced as far as Rosario. An outlying settlement has been burned and plundered, and in some cases women and children perished in the flames.

The inhabitants were fleeing from the Indians to the sea. At one place a party of English residents defended themselves as best they could, but were killed.

Under the house they were in was burned under them. There was a great outcry among the people, and the Argentine government has sent a large force to the Rio Plate, and is endeavoring to provide for the defense of the settlers. During the discussion in Congress the Argentine government has been so high that the members refused to hear the explanations of the Ministers, who left the house in disgust and threatened to resign.

The Indian invasion has removed all danger of war between the Argentine and the United States. General Mitro was sent to Rio to settle the dispute about the retention of Paraguay.

Adolpho Block, an American citizen, supposed to have been from Georgia, was murdered by Germans in the vine of San Paulo. He left considerable property and debt.

NORTH CAROLINA.

The Result Still Favorable—The State (Conceded to the Democracy.

Radical Reports Reduce the Majority but do not Deny Our Success.

From the *San Francisco Chronicle*.
The complimentary tribute to W. S. Lawton, at Platt's Hall last evening, was a perfect success, financially and artistically. The benefit was tendered by the members of the San Francisco Chapter of which Mr. Lawton is manager, and the performance was principally by members of the club, the program was well carried out, and nothing occurred to mar the pleasure of the occasion until the second performance after the intermission. C. T. Star and A. C. Curtis were announced to give a performance on the "aerial bars," and it was during this act that Mr. Curtis had a terrible fall. The act is performed from a parallelogram suspended near the ceiling, at one end of which is hung a small trapeze, while at the other is a pair of rings. Starr was clinging to the bar of the trapeze with one knee, and had caught the rings in his hands, and he was hanging by his body extended across the space below the parallelogram. As far as each ring, the trapeze was to perform the act, he was to drop down, catch Starr's hands as he swung, and then both were to swing from the bar. The act is performed from a parallelogram suspended near the ceiling, at one end of which is hung a small trapeze, while at the other is a pair of rings. Starr was clinging to the bar of the trapeze with one knee, and had caught the rings in his hands, and he was hanging by his body extended across the space below the parallelogram. As far as each ring, the trapeze was to perform the act, he was to drop down, catch Starr's hands as he swung, and then both were to swing from the bar. The program was well carried out, and nothing occurred to mar the pleasure of the occasion until the second performance after the intermission. C. T. Star and A. C. Curtis were announced to give a performance on the "aerial bars," and it was during this act that Mr. Curtis had a terrible fall.
